## 01 PROFILE

I'm a proficient developer skilled in Python, JavaScript, and C#. I thrive on continual learning, embracing challenges to expand my expertise. My focus spans the software life cycle, from design to maintenance, delivering efficient, user-centric solutions.

## 02 EMPLOYMENT HISTORY

Nov 2021 — Present

### Software Engineer at Venco Africa

- Translated wireframe designs into code for compelling web experiences.
- Engaged in full web development life cycle, meeting project timelines consistently.
- Led custom website and app development with a diverse team.
- Collaborated on A/B testing, significantly boosting user conversions.
- Created new features for an app.
- Created scripts to mine, process, and report data, contributing to data science initiatives and insights.

Mar 2020 — Jan 2021

### Software Engineer at BigFix Technologies

- Developed over 5 responsive and cross-browser compatible websites, ensuring a seamless user experience across different devices and browsers.
- Translated design wireframes into code for 6 web applications, creating engaging user experiences.
- Implemented 20+ new features for an application with a large user base.
- Created more than 8 single-page and multi-page web apps in diverse industries such as retail, fin-tech, entertainment, and others, showcasing versatility in web development.

2019 — 2020

### Software Engineer/ Data Scientist (Intern) at Bincom Dev Center

- Bincom Academy – Facilitator (Beginners and Intermediate Classes) Data Scientist

- Planned, developed, tested, deployed, and maintained web applications throughout their entire lifecycle.
- Utilized the latest Cloud, and Web Technologies to solve complex problems and deliver innovative solutions.
- Provided effective troubleshooting and remediation for web applications, ensuring smooth operation and resolving issues promptly.
- Created scripts to mine, process, and report data, contributing to data science initiatives and insights.

Nov 2018 — 2019

### Computer Operator / Software Engineer at Narocom Ventures

- Kept meticulous logs of stocked items and reported item traffic in computer systems, ensuring accurate inventory management.
- Maintained computer records of dispensed medications, maintaining organized and up-to-date medication data.
- Planned and developed written policies and procedures for computer operations, ensuring standardized and efficient workflows.
- Successfully completed several freelance Graphic Design jobs, achieving a high level of customer satisfaction.
- Worked to ensure a positive and hassle-free customer experience, delivering excellent customer service consistently.
- Maintained up-to-date knowledge of all Online Registration systems, staying informed about the latest developments and updates.
